HIS NEXT POST.

**WHERE WILL SIR EDWARD STUBBS GO?
NIGERIA SUGGESTED.**

A Land Where Cannibalism Still Prevails.

The Colonial Official having decided against Sir Edward Stubbs's term of office being extended in Hongkong, the Colony is curious to know where His Excellency will go next.

LONDON RUMOUR.

(Reuter's Service.)

London, May 21.
According to the "Manchester Guardian's" London correspondent, the name most frequently mentioned for the governorship of Nigeria in succession to Sir Hugh Clifford is Sir Edward Stubbs, Governor of Hongkong.

Sir Hugh Clifford, G.C.M.G., is now Governor of Ceylon, having been appointed to that post this year at the age of 58 years. An able administrator, he has seen much service in the Malay States and elsewhere. He was Governor of North Borneo from 1900 to 1901, and Colonial Secretary for Ceylon until 1912, when he was appointed Governor of the Gold Coast. In 1919 he was made Governor and Commander-in-Chief of Nigeria. He is the author of many admirable studies of native life among the Malays.

Hongkong's present Governor, Sir Edward Stubbs, K.C.M.G., has held the post since 1919. Appointed second class clerk, Colonial Office, in 1900, he became first class clerk in 1910. He was sent on a special mission to the Malay Peninsula and Hongkong the same year. He was a member of the West African Lands Committee in 1912. He was appointed Colonial Secretary of Ceylon in 1913. This post he held until he came to Hongkong in 1919. He administered the Ceylon Government on several occasions.

Nigeria is the British Colony and protectorate in West Africa, consisting of Northern Nigeria and Southern Nigeria (including the Lagos Protectorate). The East Coast region is flat and swampy, with a hot and unhealthy climate, malaria being very prevalent. The northern part is fertile, and the interior is traversed by mountains, the highest ranges reaching 6,000 to 7,000 feet. There are immense valuable forests.

The fauna consists mainly of elephants, lions, giraffes, hyenas, monkeys, and many species of antelope. The rivers are infested by crocodiles, hippopotami, and rhinoceros. The principal products are palm oil, kernels, rubber, timber, ivory, cotton, kola-nuts, indigo, coffee, cocoa, tobacco, ostrich feathers, shea-butter, gums, live stock, silver, manganese ore, tin, lignite, iron, lead ore, salt, and soda are found. A colliery has been opened at Udi in the southern provinces.

The region was discovered by Portuguese in the 15th century. British traders gradually acquired a predominating share of trade. The National African Co., established in 1879, acquired rights over Nigeria, and in 1886 obtained royal charter as Royal Niger Co. It surrendered the political administrative rights in 1900 and the Protectorates of Northern and Southern Nigeria were formed.

Sir Frederick Lugard, a former Governor of Hongkong, was appointed High Commissioner of both Northern and Southern Nigeria with a view to their federation (1912). In 1914 the two were united as "Colony and Protectorate of Nigeria," under a governor. The boundaries of the colony were freshly defined, and the Protectorate divided into Northern Provinces, each under a lieutenant-governor, subject to the Governor's control and authority.

All children born after April 1, 1900, were declared free, and in 1917 the Slavery Ordinance abolished the legal status of slavery. Native rulers have suppressed slave-markets, and slave-dealing is now practically non-existent.

Nigeria was explored by Mungo Park, Major Denham and Clap-

perton, R. and J. Lander, Richardson, Dr. Barth, and others.

Local administration is conducted by British Residents, native kings and chiefs. Rivers and roads are the chief means of communication, but railways (mileage in 1918, 1,110) are being extended, 480m. being under construction.

Native tribes are mostly negroes. Mohammedanism is widely spread, but cannibalism still prevails in some parts.

Nigeria responded liberally to calls for men in the great war. Forces were employed in Kamerun and East Africa.

EGGS IS EGGS.

And Not Bombs At All.

WHARF COMEDY.

SEARCHER WHO GOT A SHOCK.

How some "red" eggs used for Chinese festive occasions, came to be mistaken for bombs bought a woman's dud, which might be described as the Cantonese Cockney, is related in the vernacular papers.

When birth is given to a son, the proud parents invariably distribute boiled eggs, the shells of which are dyed red, this colour being the lucky colour for Chinese. These "red" eggs are distributed to friends and relatives. Residents in Hongkong even send them up-country.

MORE COURT CASES THAN EVER.

LAST YEAR'S 27,000.

Justice at One Dollar Per Trial.

Some 6,000 more cases were heard last year in the local Courts than ever before in the course of a year, the expenditure on each of these working out at a little over \$1 and the revenue from fines at nearly \$10.

The report of the police magistrates' courts for the year 1924

shows that 27,877 cases were heard as compared with 21,811 in 1923, both these figures being far ahead of previous years. The administration of justice has cost more in bulk (expenditure being \$30,069.20 as compared with \$24,582.48 in 1923) but the percentage of expenditure to revenue has decreased from 13.27 to 11.50 (the revenue being \$261,372.23 as compared with \$184,926.15.) It will thus be seen that the Courts have been a source of revenue to the extent of over \$230,000.

These figures do not include the New Territories Courts.

The actual number of prisoners concerned in the cases is, of course, considerably higher, being in fact, 36,675. It would appear that few are apprehended by the Police without due cause, for the magistrates considered that there was enough evidence for conviction and sentence of nearly 30,000 of these.

Contraventions under the Opium Ordinances either through discovery of possession, seizures, divers, etc. number more than any other single head of cases, these having totalled over 6,000. Next in order of numbers are offences to such matters as nuisances and trespassing (3,663), contraventions and offences under the Licensing Ordinance (3,027). Gambling, assaults and larceny offences are amongst the many others.

Year's Finance.

The annual report on Hongkong finances for the year also issued to-day acknowledges that a revenue above that estimated for the year is in part due to the increase in fines, to more licences issued, and more forfeitures also to other transactions such as the sale of Shanghai Post Office, expansion of through local traffic, increased sales and large estate duties.

The total revenue for the year amounted to \$24,209,640, being \$2,839,706 more than the estimate and \$74,123 less than the revenue in 1923. Compared with that year there were increases under all the heads except Kowloon, Canton Railway and Land Sales. In regard to the railway \$341,645 was saved, as allowances for certain rolling stock and constructional works were only partly expended.

In all, the expenditure for the year exceeded the revenue by \$2,516,788, the principal deficits compared with the estimates being coaching through traffic, assessed taxes, water excess supply and meter rents, leased lands and goods through traffic.

Military Expenditure exceeded the estimate by \$233,412 due to increase in revenue. Expenditure in connection with the construction of a Rescue Tug, the renewal of Moorings, provision of a new Typhoon Buoy, the introduction of anti-piracy Patrol Launches and other miscellaneous items resulted in the Harbour Department's vote being exceeded by \$314,300.

Less opium was purchased during the year decreasing the expenditure under this head by \$187,964.

The principal factor responsible for the decreased expenditure of \$159,518 in the Estimates for the Fire Brigade Department was due to non-completion of the new Fire Float a sum of \$34,000 being spent out of the \$180,000 estimated.

The Sanitary Department showed a decrease of \$126,089 due to savings on Salaries, Exhumation, Fuel and other items.

Expenditure in the Education Department was less than the estimate by \$108,888 on account of unpaid Building Grants and other savings.

Excess Expenditure under the votes P.W.R. Hongkong "Typhoon and Rainstorm Damages" \$356,836; "Maintenance of Buildings" \$78,541; "Improvements to Buildings" \$41,649; and "Water Works Maintenance of City and Hill District" \$41,687, were the principal factors responsible for the excess of \$658,469 under Public Works Recurrent.

NEW RENTS LAW.

\$100 FINES FOR THREATS.

TENANTS' RIGHTS.

THE RECONSTRUCTION DODGE.

The Rents Amendment Ordinance introduced into the Legislative Council this afternoon, will protect the tenant against any threats that may be made against him of reconstruction if more rent is not paid. Any lessor making such a threat will be liable to a fine of \$1,000 and will have to return any money obtained by such means.

Contrary to the provisions of the a pending section withdrawn last week, it will be within the power of the landlord to make his increase of 15 per cent. on the standard rent in one or more stages provided he gives two weeks' notice and a statement showing the percentage of the intended increase.

The provisions relating to penalties for incorrect statement of standard rent by the lessor to the lessee still remain also that for enabling the increase to be made from June 30 (when the new Bill will come into force) whether or not that day coincides with the one on the next rent payment is due.

GRAVE CHARGES.

The armed assault on an Indian constable by two Chinese at Hunghom on Tuesday afternoon, as a result of which the policeman is now in hospital with wounds, has a development at the Kowloon Magistracy this morning when the man who was subsequently arrested was formally charged with attempted murder, shooting, and possession of a revolver and two rounds of ammunition.

On the application in the police, a remand was granted for one week.

dialect which entails a rather broad pronunciation of certain words, was carrying a number of "red" eggs down to a Kowloon steamer to be sent away. The eggs were packed in a neat lacquer basket and sealed with strips of red paper. At the wharf, a police searcher asked her what the contents were. She replied "Eggs, there is no need to search the basket." Taken aback because he understood her to say "bombs," the man insisted on examining the basket.

As the woman muttered to herself, the searcher tore off the paper strips and opened the basket to find only eggs. It was then that he realised that he was talking to a "Cantonese Cockney" and that she meant eggs.

BATHING INCIDENT.

ANOTHER RESIDENT'S VIEWS.

HARDSHIPS ON CHILDREN.

Inquiries made from a well known local resident regarding the complaint that bathing parties are debauched from using that part of the beach at Stonecutters in use in previous years have elicited some useful information as to the actual trouble.

A resident, who had met with a similar experience during the weekend as our correspondent, states that a naval sergeant on a boat stationed outside the beach between the military pier and the bamboo structure about four hundred yards away prevented people from landing at that part of the beach, launching with purpose being ordered to proceed to the western side of the bamboo pier opposite Leichok.

Our informant confirms the statement that bathing at this spot is attended with risk of being brushed by rocks covered with barnacles. He further states that if any reservation is required by the police, the whole length of the beach should be debauched, thus depriving children of the sandy playground of last season. With all the ground spot there are usually little or no facilities for children, as well as for grown-ups.

FOR ANEURISM, CANCER ETC.

A new medicine for the cure of Aneurism,
Cancer and Carbuncles by Injection
and Internal use.

"Most physicians and surgeons have ex-
pressed the opinion that Aneurism, Cancer and
Carbuncles are incurable and many deaths have
been caused by these dread diseases. Dr. J.
Matsumoto, M.B., Professor of the Japanese
Imperial University has made a careful study
of these diseases for several years and has
discovered the use of "CARBONOLIN"
for injection and internal use. A large number
of Japanese patients have been cured by the
use of this medicine and it is now becoming
well known for its curative properties.
Foreigners have always died of these dis-
eases owing to failure to find a remedy.
Of late Dr. Sun Yat Sen is suffering from
cancer of the liver which is a phase of one of
the above-mentioned diseases. Those
suffering from this disease will gradually
develop fever, nervous pains, urinary troubles,
and appetite, dysentery and vomiting.
Victims of this disease are advised to in-
mediately procure "CARBONOLIN" from
our agents and by taking this internally, or
by injection, the progress of the disease will be
stopped and results quickly obtained.
Cancer glands will disappear and swellings
will be reduced to a minimum quickly and
easily by the use of "CARBONOLIN".
Those having hereditary diseases are advised
to take "CARBONOLIN" in order to check
its activities.
This medicine is the result of long ex-
periment and has no injurious effect on those
taking it.

SCALIM VORIS

THE OXFORD DICTIONARY SUPPLEMENT.

AIR AND WIRELESS TERMS.

Along the walls of the Old Ashmo-
leum at Oxford run many rows of
narrow shelves. They are stacked
with square slips, resembling folded
sheets of notepaper. Each slip
contains evidence of new words or
new meanings of existing words,
collected by contributors and sent to
the editors of the "Oxford English
Dictionary."

Many of these new words we owe
to developments in science, the arts,
politics, and commerce, though the
general tendency in the growth of
language, Mr. C. T. Onions ex-
plained to me, writes a representa-
tive of the Observer, is for words
to come up from the lower
strata, that is to say, from slang and
from provincial and dialectal strata,
and establish themselves in the
higher colloquial and literary strata.

Very seldom do new words enter
the language from the pens of
writers. Mr. Shaw's "Superman,"
which was used as a translation of
Nietzsche, was quoted as an excep-
tion. "And, in connection with
Superman one may mention," Mr.
Onions said, "the idiom 'the will
to victory' and the will to power,"
which seem to depend in present
use on the same German
philosopher."

APPENDICITIS.

Material for the Supplement to
the Oxford Dictionary has been
growing from the time this great
work was begun. "It is quite
obvious," it was pointed out, "that
we can never be complete even in
our treatment of existing words,
because earlier evidence is always
being brought to light."

"In an historical dictionary we
cannot within a limited time get all
the best evidence for the meanings
of words. New evidence is likely
to turn up at any time and to take
us back a hundred or two hundred
years in the history of a word. We
have in fact for the Supplement re-
markable instances of words and
meanings which we are able to take
back for two or three centuries.
Our object is to make the evidence
for all the words we treat and for
all their meanings as historically
complete as possible. Even now
the number of actual quotations in
the Dictionary, used for illustrating
the meanings of words according to
the historical method, exceeds a
million and a half, and the words
themselves, I suppose, run into four
or five hundred thousand."

"And even so there are many new
words which have entered the
language since the Dictionary was
begun. It is usually supposed to
be a shocking omission. I think
that 'Appendicitis' is not in the
Dictionary. This word had not been
invented—the disease had not been
recognised as a distinct dis-
ease—at the time, forty years ago,
when that part of the Dictionary
was done. The omission of a
word like that may seem serious to
the outsider, but to us it is a mere
drop in the bucket."

"AEROPLANE" IN THE OLD SENSE.

"Hosts of words have come into
the language since the Dictionary
was started. A great number,
for example, are connected with
aeronautics. Though the word
'aeroplane' will be found in the
Dictionary, it is not there in the
modern sense, but merely as a
plane placed in the air for aerostatic
experiment. Hydroplane does
not appear at all."

"The terminology of wireless
operations is also new, including the
verb 'to broadcast.' And here it
was pointed out that, though some
persons use 'broadcast' for the
sense and past participle the better
form according to linguistic analogy
is 'broadcasted.'"

"I have seen," Mr. Onions re-
marked, "the use of the monstrosity
'broadcasted' to describe a person
who receives wireless messages.
Though we have to deal with some
monstrosities I do not think we shall
recognise that. In the 'S-U,'
volume published about 1817, we
included the word 'suffragette,'
though it is not a proper formation,
and I described it in the preface as
an 'etymological anomaly.'"

"As a further illustration of new
words let us take the development
of painting. We have neither
'cubist' nor 'futurist' in the win-
dows of the Dictionary, I have heard
of 'cubism' and 'futurism' appear-
ing in the windows of the Dic-
tionary. In politics we find such new
words as 'Bolshevik,' 'Menshevik,'
and 'Fascist' in connection with
the Revolutionary movement in
Russia. We get the word 'scoundrel'
in connection with the Russian
Intelligentsia, which is de-
fined as 'the class consisting of the educated
portion of the population and re-
garded as capable of forming public
opinion.'"

HOME GOLF

MISS JOYCE WETHERED AGAIN

AMERICAN BEATEN. (Reuter's Service.)

LONDON, May 20. At Troon in the British ladies' golf championship (third round), Miss Joyce Wethered (holder) beat

Miss Joyce Wethered.

Miss Glenna Collett of America (also holder of the Canadian championship) by 4 up, and 3 to play.

[Since defeating Miss Cecil Leitch in the ladies' open championship, Miss Wethered, a sister to Roger Wethered, has reigned supreme.]

ANOTHER VICTORY.

HONGKONG WIN BY 7 RUNS AGAIN.

(Reuter's Service.)

SHANGHAI, May 20. In the cricket match between Hongkong interport team and Mr. G. M. Billings' eleven, Hongkong declared after scoring 273 for eight wickets.

Mr. Billings' team made 266 all out.

[Hongkong, therefore won by 7 runs again.]
G. M. Billings, President of the Shanghai C.C., captained the team that defeated Hongkong, in Hongkong, in 1922. At the dinner, he was presented by Mr. Hancock with the ball, suitably mounted, with which he made the winning hit. Mr. Hancock humorously remarked that Tadpole had retrieved the ball at the Central Market.]

FACING DEATH.

EARL OF YPRES' SUDDEN RELAPSE.

LITTLE HOPE FELT.

LONDON, May 21. An unexpected bulletin states that the Earl of Ypres is sinking and there appears to be little hope of his recovery.

Some weeks the Earl of Ypres was reported to be seriously ill. Later however his recovery was announced. The Earl of Ypres was Commander-in-Chief of the British forces in France in the earlier part of the war. Upon being succeeded by Field Marshal Haig, he became Viceroy of Ireland and held that post until troublous times were largely ended.

HONGKONG HONOURED.

A recent photograph of Queen Mary who visited the Hongkong Pavilion at Wembley yesterday. Her Majesty, noticing the style of hair-dressing of one of the Chinese women, observed that the lady should have her hair bobbed. If Her Majesty could come to Hongkong she would find her advice superfluous, among the young set at any rate.

GREAT REGRET. EGYPT LOSES VISCOUNT ALLENBY. NOTABLE CAREER. SOLDIER WHO CONQUERED PALESTINE. (Reuter's Service.)

London, May 21.
In the House of Commons, replying to the Leader of the Opposition, Mr. Ramsay MacDonald, the Secretary for Foreign Affairs, Mr. Austen Chamberlain stated that Lord Allenby had informed him last autumn that he desired to be relieved as soon as the public interest made his retirement possible.

Viscount Allenby.

Mr. Chamberlain had received the announcement of his intentions with great regret, and at Mr. Chamberlain's request Lord Allenby had continued to hold the post of High Commissioner of Egypt. His resignation had now been accepted. The King had approved the appointment of Sir George Lloyd to succeed Lord Allenby. This implied no change in the policy of His Majesty's Government with regard to Egypt or the Sudan.

Field-Marshal Viscount Allenby, G.C.B., G.C.M.G., commanded the cavalry expeditionary force at the outbreak of war. He did fine service since at the front. He has served in Bechuanaland, Zululand, and South Africa. He commanded the 4th Cavalry Brigade from 1905 to 1910 and was promoted to General in June of 1917, when he was appointed to the command of the Egyptian Expeditionary Force. He received the G.C.M.G. after the capture of Jerusalem in 1917. His brilliant success in September, 1918, was followed by a complete victory, commemorated by the G.C.B. He was made a Field-Marshal in July of 1919, and a Viscount, with grant of £50,000. He has been High Commissioner for Egypt since October of 1919.

The Rt. Hon. Sir George A. Lloyd, G.C.I.E., K.C.S.I., was Governor of Bombay from 1919 to 1923. He is 45 years old. He represented West Staffordshire from 1910 to 1918, and made able contributions to debates on foreign affairs. He has travelled widely.

GERMAN TARIFF.

(Reuter's Service.)

BERLIN, May 20.

Explaining the new tariff proposals, heavily increasing the duties on cotton and woollen goods, artificial silk and motor cars, the Minister of Economic Affairs said they were merely transitory and were intended to serve as a weapon of bargaining with other countries with the view to reciprocal reductions. The economic reasons for the increases were the heavy burdens on industry through taxation, reparations, shortage of capital and high rates of interest. The commercial reasons were that powerful competing countries, those from which Germany drew raw materials had introduced high tariff barriers, the lowering of which were essential to German industry if it was to survive.

MOTOR CAR TAX.

The Economic Minister said that the duties on motor cars and tractors were of a special character because foreign manufacturers enjoyed an extraordinary start over the German motor industry, therefore duties on imported motor cars would be higher than other products, amounting to about 350 reichsmarks per vehicle. These duties would be related in half-yearly stages to a normal tariff. The same procedure would be followed for the gradual reduction of duties on tractors.

In regard to customs duties on chemical products, which through an economic agreement had been lowered, the Government was considering a possible revision of the agreement of 1919, which was expiring on May 31, 1925.

AFRICAN FINERY. BLANKET CLAD CHIEFS GREET PRINCE. WEIRD COSTUMES.

Long Tail Coat of Wild Cat Skins.

Although we are not told that they wore the inevitable top hat, some of the African chiefs who greeted the Prince yesterday, achieved some extremely startling effects.

WOMEN'S RED FACES.

(Reuter's Service.)

King William's Town, May 21.
The Prince of Wales, wearing the khaki uniform of a colonel in the Welsh Guards, was enthusiastically cheered at a great gathering of 10,000 Kaffirs.

Many addressees were presented to the Prince. Massed choirs of Kaffir children sang for him. The Prince presented silver-mounted walking sticks to six chiefs.

The Kaffirs mostly wore red and brown blankets and bead necklaces.

The women had red painted faces. Some wore long skirts and short-sleeved, low-necked blouses.

The costumes of some of the men were remarkable. One man

was clad in navy blue trousers, a black evening dress waist-coat, double collar, a black dress tie, and a tall coat made of wild-cat skins.

The Prince of Wales, replying to addresses, referred to the difficulty of the racial problem in South Africa and urged the natives to make the fullest of the splendid educational facilities.

The Prince, on the previous evening, attended a dance where he was very warmly received.

He spontaneously acted as conductor of the orchestra, which was playing "Second to None."

King William's Town, named after William IV, is a town in Cape Colony and the capital of a district. Situated 29 m. west by north of East London it was formerly the capital of British Kaffraria.

King William's Town is the chief seat of frontier Kaffir trade. There are numerous German settlers who are largely engaged in the cultivation of fruit and vegetables.

(Reuter's Service.)

LONDON, May 21.

HOLDER.

Four matches of considerable importance—with that on the stand court taking pride of place—were played at the H.K.C.C. yesterday afternoon in the concluding stages of the annual lawn tennis tournament.

T. Honda, former singles champion in the F.M.S. and winner of the Hongkong title last year, to play in the final to-day.

In the semi-final of the Singles Championship, Captain C. H. D. O'Callaghan beat H. D. Rumjahn by 6-2, 6-3, 7-5. O'Callaghan meets T. Honda (holder) in the final to-day.

S. E. Green won his way to the final of the Club Championship by defeating Major Hattersley Smith 1-6, 6-4, 6-1, 6-2 in the semi-final and is down to play W. Hyde in the final this afternoon.

Earlier in the week, the final of the Handicap Singles "B" had been abandoned owing to falling light when C. W. R. Bishop (owe 1/6) led L. M. S. Lloyd (owe 3/6) by 2 sets to 1. Yesterday Bishop won the replay by 4-6, 6-4, 6-1, 6-2.

B. D. Evans and W. Hyde (owe 3/6) defeated W. B. Cornaby and N. L. H. Raitton (wer.) by 6-3, 6-2, 7-5 in the final of the Handicap Doubles.

Open Singles.

When it is considered that Captain O'Callaghan beat S. E. Green and H. D. Rumjahn in three straight sets and that Yew Mantun, who although not a tennis player, but a very good one, was his first match, it must be assumed that the new-comer has become acclimatised and that he has found his form. Whether O'Callaghan was tired or not after the strenuous tennis of Monday's match with Green, he did not seem to be playing well yesterday; but he may have reserved himself for the final to-day and the doubles final which is to be played, weather permitting, to-morrow, when the prizes will be distributed.

Some of the tennis yesterday was certainly not up to the standard expected. Now and then dull play was relieved by touches of O'Callaghan's all-round brilliance, especially when he was out to take any particular game at a critical stage. His shots were there, only he relied more on placing and volleying at the net. In driving to the corners and along the side-lines, he was accurate; his volleying and smashing were excellent; points were won by his service; but one weak point which was noticed was his inability to deal, when up at the middle centre, with short, fast volleys or quick "pick-ups" which he wished to turn aside. More often than not the ball went outside. It was in court strategy that O'Callaghan was far and away the superior, his uncanny anticipation of an opponent's game being his greatest asset.

Sending many simple backhand strokes into the net, young Rumjahn was far below his best and his form does not augur well for the Doubles final to-morrow. Occasionally, there were flashes of his stylish and effective play, this being noticeable when he passed O'Callaghan at the net. Now and then he would place to win but from beginning to end he was mainly on the defensive as he seldom held his ground at the net. Refraining from advancing and concentrating on O'Callaghan's backhand, he would wait till hard pressed, and then play his shots. That he played a good many doubles is another indication of his being off colour as he is generally very careful and he also lacked his usual speed—a fatal shortcoming against O'Callaghan. Good tennis was seen in the second set and in the latter half of the third set when O'Callaghan made an extra effort and Rumjahn was by no means as inferior as the complete score suggests. At his best, the youngster would have given the winner a much harder fight.

The Play.

O'Callaghan took the lead 1-0 and then each won a game till 2 all when Rumjahn's play fell off and he lost the set 2-6.

It was the other way about in the second set. With Rumjahn serving first, each won on service till the Indian led was 3-2, the first four games going to deuce after some fairly long rallies and a real struggle. Rumjahn contested every point but O'Callaghan, profiting by a little bad luck for the Indian, deserved to win if only for his enterprise. Leveling up 3 all, the winner took 3 more games to annex the second set 6-3, the eighth game reaching deuce before the military man won on his own service.

Three games in arrears in the third set, Rumjahn suddenly "woke up" and gave of his best, playing tennis which resembled his entertaining game and often winning applause for really pretty strokes. He crept up to 3 all, and then each started to win on service again. O'Callaghan leading 4-3 and 5-4, till 5 games all was reached. Making use of an effective chop which just puts the ball over the net and rather unexpectedly at that, O'Callaghan took two more games to win the match.

Club Championship.

S. E. Green had previously lost to Major Hattersley Smith, conceding 15 every alternate game, in the Handicap Singles "A" and he was shaky in the opening set yesterday when the Major won 6-1. Driving and placing to much better purpose than Hattersley Smith, the former open champion of the Colony got going after the initial reverse and won the next three sets as stated. On current form, he should win again to-day, in the final against W. Hyde.

Handicap Doubles.

B. D. Evans and W. Hyde, by good all-round play and sound combination, won the handicap doubles final from W. B. Cornaby and N. L. H. Raitton in three straight sets out of five. Some fairly good tennis was seen, the losers making a fight in the last set. Although at times appearing to have been rather generously treated by the handicappers, the winners deserved their victory. Evans, who did not appear to be an aggressive player, was little behind his partner.

Handicap Singles "B."

Playing considerably below his club form, Bishop was very uncertain in the final of the Handicap Singles "B" but he was forceful enough to beat Lloyd by 3 sets to 1, after losing the first set. Lloyd did not get any of the luck that was going and could not overcome his handicap, which amounted to 15 once in every three games. Lloyd's being left-handed may have had some effect on Bishop's play.

Shrewd Handicapping. Now that the handicap events are over, a word of praise is due to the gentlemen who undertook the onerous and thankless task of handicapping. As will be seen by the scores there were very few matches in which one side, on the handicap, was much superior to

the other, and the majority of games went very close in nearly every instance. The number of matches which went the full distance and were decided by a margin of 2 or 3 games bears ample testimony to the excellent handicapping.

JAPANESE "STARS."

High-class tennis in Hongkong will not end with the finals in the H.K.C.C. tournament as the Japanese Far East Olympiad tennis team is to play here on their way home next week.

Many who saw Messrs. Tobu, Ohta, Kobayashi and Yoshida in practice on the H.K.C.C. courts when passing through will know their standard. At Manila, they have done very well, and will certainly put up a good game here if they are not stale.

Commence each day at 4.15 p.m., singles first (best out of three sets), followed by doubles (best out of five sets).

Wednesday, May 27:—Toba v. Captain C. H. D. O'Callaghan; Kobayashi and Yoshida v. S. A. and H. D. Rumjahn.

Thursday, May 28:—Ohta v. T. Honda; Kobayashi and Yoshida v. Captain O'Callaghan and Ng Sze-kwong.

BURDETT CUP.

"TYPHOONS" DEFEAT EAST
POINT.

POLO COMPETITION.

Recently Hongkong polo players have been putting in practice for the Burdett Cup which was presented to the Polo Club for competition in 1923 by Sir Francis Burdett who was then visiting his son-in-law, Mr. C. C. Boyd of Ewo, who has achieved many successes on the polo field in the Far East, in Hongkong flat racing and across country in Shanghai.

Last Saturday, Sir Claude Severn presided over a luncheon party at the Hongkong Hotel when playing and non-playing members of the Polo Club bade farewell to Mr. B. D. F. Belth, an ardent and skilful player, more famous perhaps as the owner of Local Option and part owner of Grey Morn.

Two matches have already been played in this year's Burdett Cup competition, the "Typhoons" defeating "East Point" and "East Point" beating the "Robots" by five goals to nil.

The teams are:—Typhoons:—1, Mr. T. J. Gaisford; 2, Lawrence; 3, Mr. Stanton; 3, Captain G. E. Oxspring; back, Captain R. Neville.

East Point:—1, Mr. Oliphant; 2, Mr. Davies; 3, Mr. Smith; back, Mr. Pollock.

Robots:—1, Mr. Wright-Neville; 2, Captain Bloxham; 3, Captain Bennett; back, Mr. Bartholomew.

A two chukka match is played each polo day. Each team meets the other twice but the number may be increased, weather permitting and if games are good.

SLEPT IN A TRUCK.

Three sailors, P. H. Hagerty of America, A. Manis of Malaya and M. Mattoto of Spain, were again before the Kowloon Magistrate this morning on a charge of being vagrants. It was stated yesterday that the defendants had passed the night in one of the trucks of the Kowloon-Canton Railway.

A plea made by the defendants that they had friends in the Colony willing to look after them satisfied His Worship, who discharged them with a caution.

YESTERDAY'S SOLUTION.

STOLEN SUGAR.

The remand case in which three boatwomen were charged with possession of 53 bags of sugar, reasonably suspected to have been stolen or unlawfully obtained, was continued before Mr. S. B. B. Elderry at the Central Magistracy yesterday. The sugar was the property of Messrs. Jardine, Matheson and Co., Ltd.

Ten persons were previously charged, but seven of them were discharged on the police offering no evidence.

The case for the prosecution was that the sugar was found in the hold of a boat of which the accused women were the only occupants, and on falling to give a satisfactory explanation they were arrested.

In answer to Mr. E. S. C. Brooks, solicitor for the defence, the first accused said that the sugar was placed on her boat by an old man to convey to another junk. After loading the bags on board, the man went away promising to turn up with a book. He did not do so, however, and the police boarded the boat, the next morning and seized the sugar.

His Worship said that he could not see how the sugar could have been placed on the boat without the knowledge of the accused women.

Mr. Brooks said that he would call evidence to show that the sugar was placed on the boat by an old man to convey to another junk.

It will be recalled that Mumtaz Begum, a 22-year-old Indian dancing girl, was attacked by a number of unknown persons and disfigured with knives, while a named Mohammedan merchant, named Abdul Bani, with whom she was motoring at the time, was shot dead. The crime was believed to be the result of a plot to abduct the girl, who had for several years been a favourite at the Palace of the Maharaja of Indore, where she was attached to the suite of the Maharajah. Recently she had been living under the protection of Bani. While at the Indore Palace she ceased to be a favourite, and becoming weary of her position decided to escape. She bided her
